VIJAYAKUMARAN A

Senior Technical Operations Engineer | AWS & DevOps

Email: vijayakumaran.ar@gmail.com | Phone: +91 97883 72454 | LinkedIn: linkedin.com/in/vijayakumaran-ar
Location: Srivilliputhur, Tamil Nadu, India

PROFESSIONAL SUMMARY

Technical Operations Engineer with 5+ years of experience designing, automating, and managing scalable AWS cloud infrastructure. Hands-on expertise in CI/CD pipelines, containerization, and IaC using Terraform. Experienced in ECS, EKS, Jenkins, Docker, Elastic APM, ELK, and Zero Trust security.

WORK EXPERIENCE

Pranion Technology Ventures Private Limited | Sept 2021 - Present

Senior Technical Operations Engineer

- Provisioned and managed production AWS infrastructure (EC2, VPC, ECS, ECR, IAM, ALB, WAF)
- Administered EKS clusters: rolling updates, HPA, Karpenter autoscaling, zero-downtime upgrades
- Built automated CI/CD pipelines for 10+ apps (Laravel, Spring Boot, Node.js) with Jenkins & SonarQube
- Authored optimized multi-stage Dockerfiles for Java, Node.js, and PHP microservices
- Executed zero-downtime ECS deployments with ALB health checks and blue/green patterns
- Migrated RDS PostgreSQL databases across AWS accounts with snapshots and cross-account sharing
- Implemented AWS WAF with ALB & CloudFront, and configured Warpgate Zero Trust access gateway
- Implemented end-to-end observability using Elastic APM, ELK Stack, Zabbix, and SigNoz

TECHNICAL SKILLS

Cloud & Infra: AWS (EC2, VPC, ECS, EKS, ECR, IAM, ALB, S3, RDS, CloudFront, WAF, CloudWatch)
CI/CD & IaC: Terraform, Ansible, Jenkins, GitHub Actions, Maven, SonarQube
Containers & Orchestration: Docker, Kubernetes (HPA, Karpenter, Namespaces, Secrets)
Observability & Security: Elastic APM, ELK Stack, Zabbix, SigNoz, Warpgate Zero Trust, RBAC
Databases & Systems: PostgreSQL, MySQL, Ubuntu, CentOS, Apache, Tomcat, Bash/Shell

EDUCATION

B.E. Electronics & Communication Engineering (2016 - 2020)
Kalasalingam Institute of Technology, Krishnankovil
